

## CONFERENCE TABLES

Our custom made glass table tops will bring an impressive look to your office or boardroom. We house one of the highest quality tempering ovens in the world which is capable of creating some of the flattest glass in the industry, capable of housing a 100" x 180" sheet of jumbo glass.

This feature coupled with our high quality drilling, cutting and edging machinery gives you an impressive product.

Inquire about our in house artisans who can create custom artwork or lay a solid blast to the table. Laminate materials for specific color preferences and certain Slump pattern glass is also available for use in our tables.

*Jumbo solid blast conference table with multi-media access ports.*
