

## EURO SHOWER GLASS ENCLOSURES

We can help design a euro shower enclosure to best fit your Specific needs. We carry a full range of hardware from shower Fixtures, hinges, handles and special order items. Customize We can help you choose a variety of hinges, handles and hardware That will best suit your

Euro door enclosure. Our experienced staff will be able to let you Know which glass thickness works best with certain hardware and How certain doors should be hung. We can also give the customer Free reign to design their own shower using a wide selection of Hardware and fixtures. We can also provide a series of shower Door templates including swing sides and hardware placement to Assist the customer in making the best decision.

Show more glass using top and bottom mount hinges that allow More glass to show and call for fewer cutouts compared to the Side-mount method. The hinges would mount to the header and Floor or the ceiling and floor using a pivot rather than a hinge. Add a finger pull cut-out to reduce hardware and get a cleaner look.

*Solid blast single shower door with wall mount hinges.*
